

GUL-E-RANA

Software Developer • Full Stack Engineer • Python & AI Developer

gulerana3205@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio: gul-e-rana.vercel.app](#)

PROFESSIONAL SUMMARY

Full Stack and Python Developer with **1.5+ years** of hands-on experience building backend systems, RESTful APIs and AI-powered applications with Python, Django, Flask, Node.js and React/Next.js. Shipped production platforms for clients — including a **multi-tenant invoicing system in daily use**, a live AI disaster-response platform and a deepfake image detection system powered by a self-trained CNN. Experienced in designing role-based architectures and database schemas, backed by a 6-month AI & Data Science program. Currently building **RAG pipelines and LLM-powered agents** to bring applied AI into full-stack products. Open to remote or on-site roles as a Software Developer, Full Stack Developer or AI/ML Engineer.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, PHP, SQL

Frontend: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Ant Design, HTML5, Framer Motion

Backend: Django, Flask, Node.js, NestJS, Laravel, RESTful API Design, Authentication & Authorization

Databases: MongoDB, MySQL, PostgreSQL, SQLite, Supabase

AI / ML: Machine Learning (model development, training & testing), Deep Learning, Computer Vision, CNNs, Object Detection, NLP, RAG, LLM Integration, AI Agents, Workflow Automation, Pandas, NumPy, Data Analysis

Tools & Platforms: Git/GitHub, Postman, Vercel, Hostinger, Shopify (Liquid), Filament, Livewire, Payload CMS, Power BI, VS Code

Practices: Data Structures & Algorithms, OOP, System Design & Architecture, MVC & Modular Design, Role-Based Access Control, Agile/Scrum, Monorepo Architecture, CI/CD basics, Manual & Functional Testing, Technical Documentation

Soft Skills: Problem-Solving, Ownership & Accountability, Cross-Functional Collaboration, Communication, Adaptability, Time Management, Attention to Detail

PROFESSIONAL EXPERIENCE

Software Developer — Execudea Pvt. Ltd., Islamabad (Remote, Part-time)

Jun 2026 – Present

- Develop and maintain software solutions across the full development lifecycle, from design and implementation to deployment.
- Collaborate with the team on feature development, debugging and code reviews to deliver reliable, production-ready releases.

Full Stack Developer (Apprenticeship) — uExel Solutions Pvt. Ltd., Islamabad

Nov 2025 – May 2026

- Engineered and shipped scalable full-stack web applications with React.js, Next.js, TypeScript, NestJS, PHP and Laravel, improving performance through code splitting and query optimization.
- Designed and normalized relational and NoSQL databases (MongoDB, MySQL, SQLite) for cleaner data organization and faster queries.
- Built responsive, cross-browser interfaces that improved user experience and reduced UI-related issues.
- Worked in an Agile, cross-functional team — contributing to sprint planning, code reviews and on-time feature delivery.

Freelance & Client Projects

2024 – Present

- **Multi-Tenant Invoice Management System** (Laravel 12, MySQL, Filament, Livewire) — Architected a multi-tenant platform with automated invoice generation, PDF export, email notifications and reporting; used daily by a client company, with rollout planned for 3–4 more companies.
- **Rivtec LLC** (rivtecllc.com) (Next.js 15, Payload CMS, TypeScript, MongoDB) — Built and maintained full-stack features in a monorepo using modular, MVC-based design.
- **Standup Slackbot** (app.meta360.dev) (React.js, REST APIs) — Built the frontend and integrated APIs for real-time employee activity, standup submissions and GitHub commit tracking, improving team visibility.
- **Agricultural Management Platform** (in progress; Laravel 12, MySQL, Blade, Tailwind CSS) — Building farmer management, field survey and geographic data visualization modules with role-based workflows, alongside a senior developer.
- **NanoWebTools.com** & **SnapToolsOnline.com** — Maintain and upgrade two live production platforms, handling deployments, bug fixes and feature updates.

KEY PROJECTS

ResQ AI — Disaster & Emergency Response Platform

Next.js, TypeScript, Supabase, React Query, Vercel | [Live: res-q-ai-xi.vercel.app](https://res-q-ai-xi.vercel.app)

- Designed the architecture and database schema for four roles (Admin, Camp Manager, Camp Helper, User) using Supabase auth, database and real-time subscriptions, architected to support up to 500 concurrent users.
- Integrated two AI modules: a chatbot for real-time emergency guidance and a recommendation system that matches users to the most relevant relief camps and resources.
- Deployed and maintained the platform on Vercel, resolving authentication, environment configuration and real-time sync issues in production.

ImageGuard — Deepfake Image Detection System (Final Year Project)

React.js, Flask, MySQL, Python, CNN

- Trained a custom Convolutional Neural Network (CNN) to distinguish real from AI-generated images, helping users verify digital media authenticity.
- Integrated the model into a full-stack application with a React.js frontend, Flask API, MySQL database and role-based dashboards.
- Delivered the system end-to-end with full technical documentation covering system design, methodology and results.

Additional Projects

- **Hospital Management System** — Full-stack app with role-based dashboards for admins, doctors and staff to manage patient and appointment records; manually and functionally tested before release.
- **Handwritten Digit Recognition** (Python, Deep Learning, CNN) — Trained a computer vision model with high classification accuracy on handwritten digits.
- **Personal Portfolio** (gul-e-rana.vercel.app) (React, Framer Motion, Tailwind CSS, Supabase) — Animated portfolio with a custom admin panel for content management and visitor analytics.

EDUCATION

BS Computer Science — Quaid-i-Azam University, Islamabad

Sep 2021 – Aug 2025

CGPA: 3.7 / 4.0

Intermediate in Computer Science (ICS) — Islamabad Model College for Girls (P.G.), F-7/4

2019 – 2021

Grade: A

CERTIFICATIONS

- **AI & Data Science (6-month, Python-based) & Blockchain** — NAVTTC & COMSATS University Islamabad
- **ACT AI** — HEC, Prime Minister's Youth Programme, AI Skillbridge & NAVTTC
- **Microsoft Power BI** — Udemy
- **UI/UX & Webflow** (DigiSkills 3.0) — Virtual University of Pakistan
- **Graphic Design** (DigiSkills 3.0) — Virtual University of Pakistan

LANGUAGES

Urdu — Fluent | **English** — Intermediate
